The members of the Legislature enter upon such as has never before existed in the State or nation. Great and mighty is their responsibility. A large majority of them were elected as the friends of the Union, elected as men who would adopt every means necessary, in their view, to guard again t the secession of Ken tucky; and we entertnin not a doubt that they will faithfully and energetically do what was expected of them by those who voted for them. They may not be able to approve all the measures of the Administration or of its military officers, they may deem it their duty to condemn strongly a portion of those measures and to endeaver by all legitimate means to defeat them; but, whatever el e they may do or may not do, they cannot entertain a doubt for one instant of the hinding force of the soleiun obligation they are under to give, if accessary, their namest exertions in favor of keeping Keutucky in the Union. This is the great end to which they should direct all their energies, They must do everything consistent with the

Gorsuch, the commander of the Armstrong Rilles, a company belonging to the State Guard, last Portland at 2 o'clock yesterday morning, with sixty guns and accoulrements all the arms belonging to the company. He was attended, it is said, by a detachment of twelve men from his company. The party took forcible possession of the vawl of the steamer Masonic Gem, which lay at Pertland, and embarked for some point below. It is no doubt heir design to convey the arms to the Southern Confederacy.

Capt. Gorsueli was accompanied and aided in his enterprize by Capt. Let this theft of State arms by a Captain of the Slate Guard and his confederates remind the Legislature or the Military Iteanl of their duty to order the return of the State arms by the different companies of the State Guard throughout Kentucky forthwith. We are well aware that an order for the return of the arms would not be obeyed by the whole of the Guard or even by one half, but it would be cheved by soma. Nearly the whole of the State Guerd are eccessionists but not all secossionists will steal. In our view
